REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The primary reason for allowance of claims 1-5 is the inclusion of a method of separating and extracting the carrier from the liquid toner stored in the concentration adjustment pot so as to adjust the liquid toner concentration to a predetermined concentration; and reusing the liquid toner, having been adjusted to the predetermined concentration, in the liquid-development electrophotographic apparatus. This in combination with the rest of the limitations of the claims is found in all of claims 1-5, but not disclosed nor suggested by the prior art of record.

The primary reason for allowance of claims 6-14 is the inclusion of a carrier extraction mechanism for separating and extracting the carrier from the liquid toner stored in the concentration adjustment pot, wherein the liquid toner having been adjusted to the predetermined concentration in the concentration adjustment pot is reused in the liquid-development electrophotographic apparatus. This in combination with the rest of the limitations of the claims is found in all of claims 6-14, but not disclosed nor suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Vejtasa et al. and Day disclose art in liquid developing systems.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Susan S. Lee whose telephone number is 571-272-2137. The examiner can normally be reached on Mon. - Fri., 10:30-8:00, Second Monday Off.
